SPACE DAILY

DEEP SPACE

Astronomers long expected the Milky Way and Andromeda to collide in about 4.5 billion years — but a 2025 study in Nature Astronomy, using Hubble and Gaia data, estimated only a roughly 50–50 chance of the galaxies merging within the next 10 billion years.

The 2025 estimate depended on uncertain motions and neighbouring galaxies. A 2026 follow-up put the merger probability higher, showing why the forecast remains sensitive to the measurements.

SPACE DAILY

Fusion in the Sun's core releases neutrinos and high-energy photons together: a neutrino can reach the surface in about two seconds, while the photons' energy may take roughly 170,000 years to escape after countless scatterings, absorptions and re-emissions.

Solar neutrinos escape from the core in seconds, while radiant energy diffuses through dense plasma for roughly 170,000 years before it can leave as sunlight.

Here we go again. This is why quality assurance in test construction is a must. Assessments should measure students' knowledge not confuse them with implausible, irrelevant, or joke choices.

Each Schools Division Office must review its assessment procedures and provide teachers with proper training in writing, validating, and proofreading test items. This is becoming concerning. Our learners deserve examinations that are accurate, credible, and professionally constructed.

LOOK: The Prosecution at the International Criminal Court (ICC) asked the Chamber to admit into evidence the previously recorded testimony of a witness in the case against former president Rodrigo Duterte.

In a document dated September 7, the Prosecution asked permission to introduce the prior recorded testimony of witness P-1100 under Rule 68(3) of the ICC Rules of Procedure and Evidence.

The prosecution also asked to conduct a focused supplementary examination of the witness once he appears in court.

I. INTRODUCTION

1. The Prosecution requests the formal submission of the statement and associated material ("Prior Recorded Testimony")[1] of P-1100 in accordance with article 69(2) and (4) of the Rome Statute (the "Statute"), rule 68(3) of the Rules of Procedure and Evidence (the "Rules"), and the "Directions on the Conduct of Proceedings" (the "Directions").[2] The Prosecution further requests leave to conduct a focused *viva voce* supplementary examination of the witness, as detailed below.

2. Granting the request will enhance the expeditiousness of the proceedings by reducing the length of the witness's direct examination from seven hours to two hours, thus saving at least five hours of court time.

3. The Prior Recorded Testimony of P-1100 is relevant, reliable, and probative. It primarily relates to [REDACTED]. As such, his evidence is particularly relevant to the policy to 'neutralise' through violent crimes, including murder, alleged criminals in the Philippines. It also provides evidence of the Davao Death Squad's ("DDS") *modus operandi*, as well as the Accused's individual criminal responsibility, including in relation to his knowledge and intent.

4. The introduction into evidence of P-1100's Prior Recorded Testimony is not prejudicial to or inconsistent with the rights of the Accused, as the witness will be available for cross examination by the Defence and any further questioning by the Chamber, the parties, and the Common Legal Representatives of Victims (the "CLRV").

II. CONFIDENTIALITY

5. Pursuant to regulation 23bis(1) of the Regulations of the Court, this application and its Annex are filed as confidential, as they contain sensitive witness related information. A public redacted version of the application will be filed as soon as practicable.

III. SUBMISSIONS

Voyager 1 has been talking to Earth for nearly half a century, but eventually there will be a final signal.

Launched in 1977, it is now the most distant human-made object ever created, more than 25 billion kilometres from Earth and travelling through interstellar space. A radio message currently takes about 23 hours to travel between Voyager 1 and Earth.

The spacecraft is powered by radioisotope thermoelectric generators, which convert heat from decaying plutonium into electricity. But that power supply weakens with age. Voyager loses roughly 4 watts of available power every year, forcing NASA engineers to progressively shut down heaters and scientific instruments. In April 2026, NASA switched off another Voyager 1 instrument to buy the spacecraft more operating time.

The year 2036 isn't a guaranteed shutdown date. NASA says the spacecraft could remain within communication range of the Deep Space Network until roughly 2036, depending on whether it still has enough power to transmit a detectable signal. Science operations may end considerably earlier.

Sep 08, 2026 09:40:08

And when Voyager finally goes silent, it won't stop moving. There is no destination programmed into it and no engine guiding it toward another star. It will simply continue along the trajectory gravity and momentum have given it, orbiting through the Milky Way for immense stretches of time. NASA calculates that around the year 40,272, Voyager 1 will pass within about 1.7 light-years of the star AC+79 3888.

Even after humanity can no longer hear it, Voyager will still carry the Golden Record containing sounds, music, images and greetings from Earth.

One day the signal will disappear into the noise, but the spacecraft itself may continue wandering between the stars long after the civilization that launched it is gone.

SEPTEMBER 7, 2026 - MONDAY PRAYER

Heavenly Father, Thank You for this new week and new beginning. As I start this Monday, guide my steps, give me strength for my work, peace for my mind, and joy for my heart. Bless my family, protect us from harm, and let Your will be done in my life today.

In Jesus' name, Amen.

I've said it my entire career: the middle class built America. And unions built the middle class. To every worker who's ever punched a clock, worked a double, or walked a line for fair wages – and to everyone who stands up for them, at the bargaining table, in the statehouse, or on the shop floor: thank you. This country runs in large part because of you.

Today, we celebrate the birthday of the Blessed Mother Mary, a woman whose life was marked by humility, faith, and complete trust in God. Her "yes" to God became part of His beautiful plan of salvation, and her life continues to remind us to trust the Lord even when we cannot see what lies ahead.

May we look to Mama Mary as an example of a heart that remained faithful through both joy and sorrow. May her prayers and example lead us closer to Jesus, and may we always remember that a life surrendered to God can become a blessing to many.

Happy Birthday, Mama Mary! 🤍🙏 Please pray for us and guide us closer to your Son, Jesus Christ.

Happy birthday, my dearest Mama Mary...

Hail, Mary, full of grace,
the Lord is with thee.
Blessed art thou amongst women
and blessed is the fruit of thy womb, Jesus.
Holy Mary, Mother of God,
pray for us sinners,
now and at the hour of our death.
Amen.

Sa mga nakapanood ng mga video ng pagpiyansa ni Sara sa QC RTC, sana naman maliwanag sa inyo na wala talaga sya sa tamang pag-iisip. Hindi ito pwedeng maging presidente o manatili bilang bise presidente. Alang-alang sa ating bayan at sa ating mga kapwa Pilipino, pumili naman tayo ng maayos.

'WE WILL BE PRESENTING THE VICE PRESIDENT HERSELF'

Atty. Lorna Kapunan said that the prosecution panel aims to present Vice President Sara Duterte before the impeachment court.

"All of these pawns and castles and horses and bishops point to only one person, and that accountable person is the Vice President. And that is why, your honor, in lieu of presenting 15 other witnesses, we will be presenting the Vice President herself," she said on Tuesday.

"As regards to the misuse, misappropriations of confidential funds which is Article 1 of the articles of impeachment. And as well, we have two remaining articles, the article on unexplained wealth and the article of bribery. All of which, unless the Vice President herself appears and respects the process of this impeachment court," Kapunan added.

WESTERN VISAYAS KEEPS MOVING FORWARD.

Progress is not just about new buildings, bigger investments, better roads, or a growing economy.

Dapat kasama sa sukatan ng progreso kung mas kaunti na ang pamilyang nabubuhay sa kahirapan.

And Western Visayas is showing encouraging movement.

Poverty incidence among families in the region went from 9.8% in 2023 to 5.2% in 2025 — lower than the 6.4% national average.

That matters.

Because investments, tourism, infrastructure, agriculture, businesses and job creation should ultimately lead to one thing: better lives for ordinary families.

Hindi sapat na umunlad lang ang lugar sa itsura. Ang tunay na progreso, ramdam kapag mas maraming pamilya ang umaangat at mas kaunti ang naiiwan sa kahirapan.

We still have work to do, but this is the direction worth protecting and pushing f

We still have work to do, but this is the direction worth protecting and pushing further.

MORE PROGRESS. MORE OPPORTUNITIES. LESS POVERTY.

Uswag, Western Visayas. Para sa tanan. 💙

The Baptist Center Church family, expresses our deepest sympathy and Christian love to the family of

RETIRED COL. CICERO J. PALACIOS
who was called home to be with the Lord this morning, September 7, 2026, at 8:00 AM.

We thank God for the life, service, and testimony of Col. Palacios — a soldier who served his country with honor, and a servant who loved the Lord faithfully. His life was a testimony of duty, integrity, and faith.

In this hour of sorrow, we cling to the promise of God's Word:

"O death, where is thy sting? O grave, where is thy victory? But thanks be to God, which giveth us the victory through our Lord Jesus Christ." — 1 Corinthians 15:55-57

"Precious in the sight of the LORD is the death of his saints." — Psalm 116:15

May the God of all comfort embrace the bereaved family with His peace that passeth all understanding. We are praying with you, mourning with you, and standing with you in this time of loss.

GUSTONG IPRESENTA SI VP SARA

Muling inihayag ng Prosekusyon na nais nilang ipresenta bilang testigo si mismong Vice Pres. Sara Duterte sa kanyang impeachment trial.

Ito'y matapos sabihin ng Prosekusyon na hindi na nila ipipresenta ang natitirang 15 testigo para sa Article 1 o tungkol sa umano'y misuse of confidential funds.

"All of these pawns and castles and horses and bishops point to only one person, and that accountable person is the Vice President," saad ni Counsel for the Prosecuton Atty. Lorna Kapunan.

"The testimony of the Vice President will be material to all four articles... That is why at the end of all of these articles, we reserve the right to present the Vice President herself," dagdag niya.

BAKIT TINAWAG NA 'UNCLE SAM' ANG U.S.?

Noong September 7, 1813, nakuha ng United States ang kilala nitong bansag, si 'Uncle Sam'. Ang nickname na Uncle Sam ay hango sa meat packer na si Samuel Wilson. Bagama't maraming bersyon ang pinagmulan ng Uncle Sam, ang kaganapan noong September 1813 ang pinakatumatak at kinikilala ng U.S. Congress.

Si Uncle Sam ay ang simbolikong karakter ng U.S. Noong War of 1812, ang meat packer na si Samuel Wilson mula sa Troy, New York ang nagsisilbing suplayer ng mga baka para sa mga sundalong Amerikano. Ang mga bariles na pinaglalagyan ng mga karne ay tinatatakan ni Samuel ng 'U.S' para sa United States. Dahil kilala si Samuel sa palayaw na Uncle Sam, madalas pabirong ikinakabit ng mga sundalo ang 'U.S' kay Uncle Sam. Ang kuwentong ito ay nailathala sa pahayagang Troy Post at kalauna'y nakilala si Uncle Sam bilang simbolo ng United States. Pumanaw si Samuel noong 1854. Noong September 1961 nang kilalanin ng U.S. Congress si Samuel Wilson bilang "*the progenitor of America's national symbol of Uncle Sam*."

America's national symbol of Uncle Sam."

Sa kabilang banda, ang political cartoonist na si Thomas Nast ang nagpasikat sa popular na imahe ni Uncle Sam noong 1860s at 1870s. Binigyan niya ng katauhan si Uncle Sam na mayroong puting balbas at damit na mayroong disenyong stars-and-stripes. Dinagdagan naman ng top hat ng artist na si James Montgomery Flagg ang imahe ni Uncle Sam.

Today, we celebrate Mama Mary, her birth, her beautiful life, and the quiet yes that opened the door for God to enter the world through a family. 💙

She was a ,daughter, a wife, a mother. She loved Jesus in the ordinary things, holding Him, feeding Him, watching Him grow, keeping Him close, while St. Joseph stood faithfully beside them.

And because Mary said yes, her whole life became a Magnificat: a song of love, trust, and praise to God.

So today, what can our family give Mama Mary for her birthday? Maybe a Rosary prayed together, a kinder home, forgiveness, more patience, or simply one sincere yes to Jesus.

Happy birthday, Mama Mary. 🌷
May our homes always have room for your Son.

Around 270,000 passengers have been stranded across Indonesia after Anak Krakatau erupted, grounding more than 2,000 flights and forcing airports to suspend operations.

The volcano, 150km from Jakarta, sent lava fountains and ash into the air, with ash reaching 15,000m over Sumatra and western Java.

Jakarta's Soekarno-Hatta International Airport and three others extended closures after volcanic ash was detected in nearby airspace, disrupting travel, schools and shipping.

Indonesia's Geological Agency warned that further eruptions remain likely, while authorities continue checking ash conditions every 30 minutes.

Officials have restricted access within 3km of the crater and created a 3km exclusion zone for ships, but confirmed there is no tsunami warning linked to the eruption.

WHY IS MARY'S BIRTHDAY CELEBRATED ON SEPTEMBER 8? | Every year on September 8, the Church joyfully celebrates the Nativity of the Blessed Virgin Mary, honoring the birth of the woman chosen to become the Mother of God. It is a feast filled with hope and gratitude, but it also raises a common question: How do we know that Mary was born on September 8?

The simple answer is that we do not know her actual birth date. Sacred Scripture does not record when Mary was born, nor does it provide details about her early life. Instead, the Church celebrates her birth through a long-standing Christian tradition that highlights her unique role in God's plan of salvation.

The origins of this feast can be traced back to fifth-century Jerusalem. Near the Pool of Bethesda, Christians built a basilica on a site traditionally believed to be the birthplace of the Blessed Virgin Mary. Every year on September 8, the faithful gathered to commemorate the dedication of that church, and over time, the celebration naturally became associated with Mary's birth.

2026-09-08 14:46:38

As devotion to the Blessed Virgin spread, so did the feast. What began as a local celebration in the Holy Land was embraced throughout the Eastern Church before eventually being adopted by the Western Church. Today, it remains one of the oldest and most cherished Marian feasts in the Church's liturgical calendar.

The celebration of Mary's birth is also closely connected to the Feast of the Immaculate Conception on December 8. The Church commemorates Mary's conception without original sin on that day, and exactly nine months later, celebrates her birth on September 8. Although the Nativity of Mary was celebrated before the Immaculate Conception was formally established, the two feasts now beautifully complement one another in the liturgical year.

More than commemorating a date, this feast celebrates what Mary's birth signifies. Her arrival into the world marks the beginning of God's visible preparation for the coming of His Son, Jesus Christ. Before the Savior would be born in Bethlehem, God first prepared the one who would become His Mother.

The Church celebrates only three birthdays in its liturgical calendar: the birth of Jesus Christ on December 25, the birth of St. John the Baptist on June 24, and the birth of the Blessed Virgin Mary on September 8. Each birth ma

The Church celebrates only three birthdays in its liturgical calendar: the birth of Jesus Christ on December 25, the birth of St. John the Baptist on June 24, and the birth of the Blessed Virgin Mary on September 8. Each birth marks a decisive moment in salvation history and reveals God's unfolding plan to redeem humanity. Mary's birth, in particular, is celebrated because she was chosen to cooperate freely with God's saving work.

The Fathers of the Church often described Mary's birth as the dawn before sunrise. Just as the first light of morning announces the coming of the sun, Mary's birth announces the coming of Christ, the Sun of Justice. Her life points not to herself but always to her Son, who is the light of the world.

Reflecting on this mystery, St. Andrew of Crete beautifully proclaimed: "Today the Creator of all things has prepared a dwelling place for Himself. Today humanity, in all the radiance of her spotless nobility, receives its ancient beauty." His words remind us that Mary's birth marked the beginning of a new chapter in God's saving plan, one that would culminate in the Incarnation of Jesus Christ.

For Catholics, therefore, September 8 is not about identifying Mary's historical birthday with certainty. Rather, it is a joyful li

For Catholics, therefore, September 8 is not about identifying Mary's historical birthday with certainty. Rather, it is a joyful liturgical celebration that gives thanks for the beginning of the life of the one through whom God prepared the coming of our Savior. As we honor Mary's birth, we celebrate God's faithfulness, His perfect plan, and the hope that entered the world through the Mother of Christ.

Ginhatagan pagtamod ni Senador-judge Robin Padilla nga indi mahimo nga tandugon ang Konstitusyon, ilabi na nga may yara sang gintalana nga proseso para sa anuman nga pag-amyenda sini.

Ini matapos ginsambit ni Senador-Judge Erwin Tulfo sa iya manifestation ang isyu sang voting threshold sa Senate impeachment court.

Sa iya pahayag, ginsiling ni Padilla nga ang rason nga may yara sang Committee on Amendments amo nga mag-agi diri ang ano man nga ginaduso nga ammendments sa Konstitusyon.

Ginpanindugan ni Padilla nga wala sia nagapasobra sa iya mga pahayag kag aminado nga isa sia ka ex-convict.

“Hindi po ganyan kataas ang pinag-aralan ko, pero ipaglalaban ko ang Konstitusyon na ito hanggang sa dulo ng aking buhay,” pagpakigbaton ni Padilla.

Earth Signal
Suggested for you · 18h ·

Pick almost any point on land and trace a line straight through the center of the Earth, and there's a good chance you'll come out somewhere in open ocean. Geographers estimate that only about 4 percent of Earth's land surface has another landmass sitting directly on its antipode, the exact opposite point on the planet.

That's mostly a consequence of how continents are arranged. Much of the world's land sits clustered in the Northern Hemisphere, while its antipodal points fall across the Pacific and Southern Oceans, which cover far more of the globe than any continent. Spain's antipode is ocean near New Zealand. Most of the United States points toward open water in the Indian Ocean. Geography doesn't mirror itself the way our maps suggest. Patterns hiding in plain sight. 🌐

To think Walden Bello predicted the current state of the Philippines six years ago, and a lot of people especially the Marcos and Duterte supporters are surprised of the current circumstances between these two political dynasties.

It is also quite a feat for these two political dynasties to waste the political and social capital they garnered with their practical but self-destructive partnership.

This administration could have literally changed this country for the better, they were given an unprecedented mandate by the people to do what thet want.

And they chose petty political infighting, and corruption

“Ang tanan nga sidewalk vendor kaina kag si [M]ayor naghambal nga tanan nga payong nga pula ang ginpanghatag sang [MLhuillier] kuhaon kag islan sang blue nga payong” — Text message nga nabaton ni Congresswoman Julienne Baronda

ILOILO CITY — Ginpakigbahin ni Congresswoman Julienne Baronda ang nabaton niya nga text message angut sa pag-ilis sang mga sidewalk vendors sang pula nga payong nga halin sa bangko nga MLhuillier sa duag blue nga payong.

“Ang indi magsunod [pahalinon] sa pwesto. Flash report na bag-o lang tapos ang meeting namon,” kabahin sang mensahe nga nabaton ni Baronda.

Separado pa gid nga mensahe ang nabaton ni Baronda halin sa ginapasuni miyembro sang Vendor’s Association sa Central Market.

“Cong. 5th floor sang [City Hall] sila nag-meeting. Tani libre ila payong, kaso red. Te nagbakal naman [sila] payong nga blue sa ila presidente tag-P350 pa abi. Wala sila mahimo blue gid ila gamiton. Taga-City Hall nag-meeting sa ila.”

2026-09-08 14:52:07

Sa pag-interview sang Aksyon Radyo news team kay Josefino Barroca nga Presidente sang Vendor’s Association sa Central Market, wala siya sang ihibalo parte sa ginhatag nga pula nga payong, kag ginpanginwala man niya nga may miyembro sang ila asosasyon nga nagabaligya sang blue nga payong agud pang-islan ang pula nga payong.

Dugang pa ni Barroca, “kon sidewalk sila, wala na, indi na sila sakop sang vendors (association).”

Ginpalab-ot na sa siyudad ang amo nga impormasyon agud maathagan ang isyu.

Nagkaroon ng problema sa utak na kung tawagin ay Anxiety attack ang pnka mmhal nating si Romualdez.
ito lhat ay dahil sa diumano pgtanggap nya ng 7.44 billion pesos kick back mula sa mga maanomalyang flood control projects na kung iisipin, kahit sino nman ay maaari ngang mgkaroon ng Anxiety attack.

kasi para maubos mo ang 7.4 billion pesos ay kung gumagastos ka ng 1m a day ay aabutin k ng 20 years pra maubos ito, nkka anxiety tlga kung paaano mo ittago at uubusin ang gnto klaking pera, Ganon din n prang magic na ang sintomas ng Anxiety ay llabas lang pag anjan na ang mga pulis.

HAPPY BIRTHDAY, MAMA MARY!

Every September 8, we joyfully celebrate the birth of the Blessed Virgin Mary—the woman chosen by God to become the Mother of our Savior and our loving Mother in faith.

May her life of humility, obedience, and unwavering trust in God inspire us to say “yes” to His will each day.

As we honor her birth, let us ask for her maternal intercession and entrust ourselves to her loving care.

Happy Birthday, Mama Mary! 🌹
Pray for us and lead us always closer to your Son, Jesus.

#DataBreachAlert: The National Capital Region office of the Department of Labor and Employment (DOLE-NCR) is the subject of an alleged data breach after a threat actor claimed to have obtained approximately 10GB of data from the agency's systems.

The claim was posted on September 7, 2026, by a forum user identified as "chaos76." A screenshot accompanying the post was titled "Philippine Department of Labor and Employment NCR Region SRC + DB Leak (10GB)" and was marked as a breach or leak involving DOLE-NCR.

The screenshots show what appears to be a directory listing, containing numerous folders associated with DOLE-NCR applications and systems. Among the visible directories are AIMS, ATS, CaseTracker, CRTHDB, DMS, DNCC, GIP, HRIMS, HRIMS_old, and DOLE-NCR-related identifiers.

Several directories shown in the screenshot are relatively large. For example, the displayed listing includes CRTHDB at approximately 1.7GB, GIP at 3.6GB, DNCC at 382.4MB, HRIMS at 537.4MB, DOLE-NCR ID at 744.3MB, and other application directories ranging from several megabytes to hundreds of megabytes. The screenshot therefore app

2026-09-08 14:58:22

The screenshot therefore appears to show a substantial amount of data stored within the alleged compromised web-hosting environment.

The apparent system names nevertheless indicate potentially significant exposure. DOLE-NCR's official applications portal lists systems including Asset Inventory Monitoring System (AIMS), Attendance Tracking System (ATS), Case Tracker, Complaints Monitoring System (CRTH), Document Management System (DMS), DOLE-NCR Command Center (DNCC), Government Internship Program (GIP), and Human Resource Information Management System (HRIMS).

The presence of similarly named directories in the leaked directory listing could indicate that the compromised environment hosted multiple DOLE-NCR applications. However, directory names alone do not prove that the corresponding databases or records were successfully exfiltrated.

The alleged breach follows a separate DOLE-NCR web defacement reported several days earlier. On September 6, 2026, users reported that the DOLE-NCR client portal had been compromised and displayed offensive and explicit material. Online reports also described the defacement as containing hateful and offensive comme

antisemitic material.

hateful and offensive comments, including antisemitic material.

The incident affected a publicly accessible DOLE-NCR web presence. DOLE-NCR operates several online systems and identifies its Client Portal as a platform through which users can submit requests, applications and reports.

It is not yet established that the earlier defacement and the newly claimed 10GB leak were carried out through the same intrusion or by the same actor.

A Well-Appointed Vision of Philippine Modernism

The postwar era ushered a new generation of Filipino artists that began to look beyond familiar modes of representation.

National Artists Cesar Legaspi, H.R. Ocampo, José Joya, BenCab, and Ang Kiukok, together with Mauro Malang Santos and Danilo Dalena each reimagined the Filipino experience, transforming it through their individual visions, as their works came to define Philippine Modernism.

Explore this remarkable art historical shift through their works, which are among the highlights of 'The Well-Appointed Life.'

The September edition of 'The Well-Appointed Life' takes place Saturday, September 12, beginning with an online Morning Sale at 10AM, followed by a live and online Afternoon Sale at 2PM.

Preview is now open to the public daily (excluding Mondays) from 9AM-6PM, leading up to the marquee sale

Mahimo pa mabakunahan ang mga kabataan nga wala makapabakuna kontra tipdas kag rubella sang nagligad nga bulan.

Suno kay Dr. Maria Socorro Quiñon nga head sang Iloilo Provincial Health Office (IPHO), pwede makakadto ang mga ginikanan sa mga health centers malapit sa ila lugar agud mapabakunahan ang ila kabataan tungod may available pa man nga bakuna.

Ginhimo ni Quiñon ang paathag tungod may iban nga mga kabataan nga wala matublukan sang nagkadto ang mga health workers sa ila lugar tungod ginahilanat ukon naglain ang pamatyag.

Importante suno kay Quiñon ang proteksyon sang mga kabataan batok sa balatian.

Base sa record sang IPHO, as of September 6, yara sa 67.6% sang projected population ang nabakunahan sa Iloilo Province. Equivalent ini sang 11,625 ka mga kabtaan.

BREAKING🚨 ICE agents drove their SUVs onto a CROWDED SIDEWALK full of neighbors, nearly hitting the city council vice president. The council president calls it attempted murder.

For about 40 hours, starting at 6 a.m. Thursday, ICE agents sat on every street of Taskers Chance, a small subdivision in Frederick, Maryland.

Many residents stopped leaving their homes. Volunteers offered to walk people to work or give them rides so they wouldn't have to go out alone. The Baltimore Banner's Sara Ruberg first reported the story.

Around 9:30 Friday night, five or six vehicles lined up on Stoneybrook Court and began flashing their lights, City Council President César Díaz said. Then the agents drove onto the sidewalk where observers were standing and chanting. "People had to move or risk getting run over," Díaz said. Council Vice President Katie Nash was nearly struck. Díaz said he had to step back to avoid being hit himself.

Some observers sat down in the road and linked arms, chanting "We shall not be moved." Others linked arms in front of the house the agents appeared to be targeting. Nash called Frederick police and asked them to come

Some observers sat down in the road and linked arms, chanting "We shall not be moved." Others linked arms in front of the house the agents appeared to be targeting. Nash called Frederick police and asked them to come protect the observers.

Minutes later, she said, agents pulled out batons and hit the people forming that human barrier. None of the observers was violent or throwing anything, she said.

Videos show agents charging the house, dragging seated protesters away and piling on top of them. Frederick officers stood nearby and did not step in. Maryland police are barred from assisting immigration enforcement, and also from interfering.

Agents opened the door and went inside, where a person was standing. A couple of people were injured. No one was arrested, and the agents left soon after.

Nash said an ICE agent had walked up to her Thursday evening and told her he knew her name, her license plate and where she lived.

FEAST OF THE NATIVITY OF THE BLESSED VIRGIN MARY I September 8

"Joseph, son of David, do not be afraid to take Mary your wife into your home. For it is through the Holy Spirit that this child has been conceived in her." ~ Matthew 1: 1-16, 18-23

HAPPY BIRTHDAY, MAMA MARY!

Whenever we celebrate someone's birthday, we traditionally think of gifts, flowers, food, and celebrations.
We ask ourselves: What can I give to the person celebrating a birthday? How can I make that person feel loved and remembered?

Today, we celebrate the birthday of someone very dear to us, Mary, our Blessed Mother.

And so, perhaps we can ask ourselves:
What gift can we give Mama Mary on her birthday?
Should we prepare a party for her?
What would make her happy?

Perhaps Mary would gently smile and tell us:
"You do not need to give me a party. You do not need to give me a gift. I have already received the most precious gift anyone cou
Son, Jesus. He is enough for me.

2026-09-08 15:02:23

Perhaps Mary would gently smile and tell us:
“You do not need to give me a party. You do not need to give me a gift. I have already received the most precious gift anyone could ever receive, my Son, Jesus. He is enough for me.”

And then perhaps she would say:
“Instead, let me give you a gift.”

“What gift would you like to give us, Mama Mary?”

And Mary might answer:
“I will share with you the greatest gift God has entrusted to me, my Son, Jesus. He is the fulfillment of my faith, the source of my hope, the reason for my joy, and the strength of my courage.”

What a beautiful thought!

On Mary's birthday, the one who gave Jesus to the world continues to give Jesus to us.

And perhaps this is the deeper meaning of today's celebration.

Let us look at the readings and discover the gifts that Mary continues to share with us through her Son.

1. THE GIFT OF JESUS IS OUR HOPE
From the Prophet Micah, we hear of God's promise and the coming of the one who will bring peace and restoration.

This reminds us that Jesus is the fulfillment of our hope.

Hope is especially precious when life becomes difficult, when we experience uncertainty, disappointment, loneliness, broken relationships, and situations we cannot control.

The world today needs people who can still hope.

There are already enough voices that tell people:
"It's hopeless."
"Nothing will ever change."
"There is no reason to continue."

But as followers of Christ, we are called to become bearers of hope.
Let us not be people who add to another person's burden through constant criticism, blame, judgment, or discouragement.
Instead, let us become people who lift others up.

When someone is losing hope, let us remind them that God has not abandoned them.
When someone is walking through darkness, let us be a small light.
When some

When someone is losing hope, let us remind them that God has not abandoned them.
When someone is walking through darkness, let us be a small light.
When someone feels that tomorrow has nothing to offer, let us help them believe that God is still writing their story.

2. THE GIFT OF JESUS IS OUR JOY IN THE MIDST OF SORROWS
The Psalm reminds us that even in moments of sorrow, the heart can continue to rejoice in God's goodness.

Mary's joy was not a joy that came from having an easy life.

She experienced uncertainty.
She experienced misunderstanding.
She knew what it meant to carry a burden she did not fully understand.
She watched her Son suffer.
She stood at the foot of the Cross.

And yet, Mary remained close to God.
Her joy did not come from the absence of problems.
Her joy came from the presence of God.

This is an important lesson for us.
Christian joy does not mean that we never cry.
It does not mean that we never become tired.
It does not mean that we never

2026-09-08 15:02:34

It does not mean that we never experience pain.

Christian joy means that even while we are hurting, we know that God is with us.

There are already enough people who spread bitterness, anger, resentment, and sadness.

Let us choose another way.
Let us become bearers and givers of joy.

A smile may seem small, but it can brighten someone's day.
A kind word may seem simple, but it can give someone strength.
A listening heart may seem ordinary, but it can remind someone that they are not alone.

Sometimes, we do not need to solve another person's problems.
Sometimes, we simply need to be present.

And through our presence, we can help them discover that God's presence is also there.

3. THE GIFT OF JESUS IS OUR COURAGE TO TRUST GOD'S PLAN
In today's Gospel, we encounter Joseph and Mary facing a situation they could not fully understand.

God's plan was not simple.
It was not easy.
It demanded faith.

It was not easy.
It demanded faith.

Mary had to say yes to something she could not completely comprehend.

Joseph also had to say yes when his own plans and expectations were suddenly changed.

They may have had questions.
They may have been afraid.
They may not have understood everything.

But they trusted God.
Their yes was not the absence of fear.
Their yes was the decision to trust God even in the presence of fear.
That is what makes their yes so courageous.

Sometimes, we think that being courageous means having no fear.

But Mary and Joseph teach us something deeper:
Courage is not the absence of fear. Courage is choosing to trust God even when we are afraid.

So today, on the birthday of our Blessed Mother, let us not only celebrate Mary.

Let us learn from Mary.
Let us learn her faith.
Let us learn her humility.
Let us learn her courage.

Let us learn her humility.
Let us learn her courage.
Let us learn her willingness to trust.

And above all, let us learn how to bring Jesus into the lives of others.

A PRAYER ON MAMA MARY'S BIRTHDAY

My Lord and my God,
As we celebrate the birthday of our Blessed Mother Mary,
we thank You for the beautiful gift of her life.
Thank You for choosing Mary to be the Mother of Your Son,
and for giving her to us as our Mother.
Lord, on her birthday,
we may wonder what gift we can give her.
But today we realize that
Mary is still the one giving us a gift, Jesus.
Through her, You have given us
the gift of faith to believe,
the gift of hope to continue,
the gift of joy even in the midst of sorrow,
and the gift of courage to trust Your plan.
Lord, teach us to become like Mary.
When we do not understand,
teach us to trust.
When we are afraid,
teach us to say, “Let it be done to me according to Your word.”
When we are suffering,
teach us to remain faithful.

‘WE WILL BE PRESENTING THE VICE PRESIDENT HERSELF’

Atty. Lorna Kapunan said that the prosecution panel aims to present Vice President Sara Duterte before the impeachment court.

“All of these pawns and castles and horses and bishops point to only one person, and that accountable person is the Vice President. And that is why, your honor, in lieu of presenting 15 other witnesses, we will be presenting the Vice President herself,” she said on Tuesday.

“As regards to the misuse, misappropriations of confidential funds which is Article 1 of the articles of impeachment. And as well, we have two remaining articles, the article on unexplained wealth and the article of bribery. All of which, unless the Vice President herself appears and respects the process of this impeachment court,” Kapunan added.

'VERY SQUAMMY'

LOOK: A man was caught on CCTV using an underarm deodorant from a convenience store shelf in Dagupan City, Pangasinan before returning the product.

The store, MyMart Everyday, called the act "very unhygienic" and "very squammy," saying tampering with an unpurchased product is a crime.

"Using and tampering of product is a crime. Wala itong pinagkaiba sa tumikim ng hotdog sa 7/11 tapos ibinalik. Very unhygienic & very squammy," the store said in a Facebook post.

"Rest assured that the used deodorant has been taken off the shelf before anyone could buy it," it added, reminding customers: "If you use it, you buy it."

'HINDI KO KAILANGAN NG MATERYAL NA BAGAY'

Rovelyn Baterbonia appealed for a “simple” celebration to mark the 100th day of her son, Rene Baterbonia's passing, saying she prefers to receive financial assistance and prayers instead of material gifts to commemorate his death.

"Gusto ko lang [simpleng] pagdasal ayaw kong may makarating na litson, pa-pizza, pa-balloons at [kung ano-ano pa man]," she wrote on Facebook.

"Hindi ko kailangan ng materyal na bagay kasi gusto ko dasal at kung may mga konting tulong na ipapaabot n'yo kung [pwede diretso] n'yo na sa akin," Rovelyn added, sharing her online banking details for those who wish to send help.

The Church has celebrated the birth of the Blessed Virgin Mary since at least the sixth century. The September 8 date was chosen in part because the Eastern Church begins its liturgical year in September. This feast later helped establish December 8 as the date for the Immaculate Conception.

Scripture does not record the details of Mary's birth. The apocryphal Protoevangelium of James fills the gap with a pious tradition: the barren couple Anna and Joachim pray for a child and receive the promise of a daughter who will play a unique role in God's plan of salvation. Though not historical, the story highlights God's special presence in Mary's life from the beginning.

Saint Augustine reflected on the feast by urging the earth to rejoice, calling Mary "the flower of the field from whom bloomed the precious lily of the valley." Through her birth, he taught, the fallen nature inherited from our first parents begins to be transformed.

In the liturgy, the Church sees Mary's nativity as closely linked to the dawn of salvation in her Son and prays for an increase of peace.

‘BLESSED WITH ANOTHER LIFE’

A delirious Kabir Maharjan drifted in and out of consciousness in a pool of muddy water in complete darkness, trapped for nine days in a tunnel beneath the wreckage of Nepal's worst flood disaster in decades.

When he finally awoke at a hospital after a miracle rescue, he did not recognize his wife. Confused, he asked her why she had not given him a bed sooner.

Maharjan was one of hundreds of hydropower workers believed to have been buried when a glacier collapsed above Nepal's Trishuli valley on August 26, unleashing a wall of mud and water that killed more than 1,300 people and left thousands missing across Nepal and neighboring Tibet.

He and mechanical foreman Sanjay Sah survived in an air-filled chamber, said lawmaker Shri Ram Neupane, a veteran tunnel engineer who helped lead the rescue effort.

CHURCH NEWS | Before Bethlehem There Was Mary: Why we Celebrate Her Birthday on September 8

Why do we celebrate Mary's birthday on September 8?

The honest answer is: we do not know. Sacred Scripture does not tell us the exact date of Mary's birth, nor does it give us a detailed account of her childhood.

So why September 8?

The feast has its roots in the Christian tradition of Jerusalem, where a church was built near the Pool of Bethesda and traditionally associated with the birthplace of Mary. By the fifth century, a celebration of her Nativity was already being observed there on September 8. The feast eventually spread from the Eastern Church to the West and became part of the universal Roman Catholic liturgical calendar.

September 8 also has a beautiful connection to another Marian feast. On December 8, the Church celebrates the Immaculate Conception of Mary, her conception preserved from original sin. Nine months later comes September 8, the celebration of her birth.

of Mary, her conception preserved from original sin. Nine months later comes September 8, the celebration of her birth.

But the Church is not simply celebrating a date on a calendar.

Mary's birth matters because her life was part of God's preparation for the Incarnation. From her would come the Mother who would freely give her "yes" to God, welcoming Jesus Christ into the world.

That is why Mary's Nativity is more than a birthday celebration. It is a reminder that God often begins His greatest works quietly, long before we see their fulfillment.

Happy Birthday to the Blessed Mother!

A female Philippine Eagle named Girlie has reached an estimated age of 46 to 47 years, making her believed to be the oldest known Philippine Eagle living under human care. Her extraordinary story began more than four decades ago. In October 1982, Girlie was brought to a woman in Cagayan de Oro as collateral for a ₱769 loan. She was weak, injured, and had suffered serious damage to her right eye after being struck by a slingshot. Wildlife authorities eventually intervened, and on December 22, 1982, she was rescued by a team from the former Philippine Eagle Research and Nature Center. Despite arriving in poor condition, with damaged feathers, parasites, scars, and permanent loss of vision in one eye, Girlie survived. More than four decades later, she remains alive at the Ninoy Aquino Parks and Wildlife Center in Quezon City, surpassing the 40-plus-year lifespan generally cited for Philippine Eagles in captivity.

Girlie also occupies an important place in the history of Philippine Eagle conservation. In 1984, she was paired with a rescued male named Tsai, and in December 1987 she laid the first fertile egg recorded in the captive-breeding history of the Philippine Eagle. Although the embryo stopped developing and the egg never hatched, the event demonstrated that

embryo stopped developing and the egg never hatched, the event demonstrated that successful mating and fertilization were possible under managed care, providing valuable knowledge for the emerging conservation-breeding program. Decades of improvements in nutrition, veterinary medicine, enclosure management, reproductive research, and long-term monitoring have since helped conservationists better understand the needs of Pithecophaga jefferyi. Girlie's remarkable longevity now provides another rare opportunity to learn about aging and long-term health in a species for which lifespan data remain limited.

Her survival is especially meaningful because the Philippine Eagle remains Critically Endangered, and its future ultimately depends on protecting the forests where wild eagles hunt, nest, and raise their young. Deforestation, habitat fragmentation, trapping, and shooting continue to threaten the species, while its naturally slow reproductive rate makes population recovery difficult. Captive breeding, rescue, rehabilitation, and veterinary care can save individual birds and provide an important conservation safety net, but they cannot replace healthy forests and secure wild populations. Girlie's journey from an injured eagle rescued in 1982 to a record-setting survivor more than four decades later is therefore more than a story of longevity. It is a living reminder of what sustained conservation can accomplish and why protecting every remaining Philippine Eagle
